Ashley Johnson

Full Stack Software Developer

Elmhurst, IL 60126 • ashleyann9535@gmail.com • LinkedIn • GitHub • (815) 992-0621

OBJECTIVE

Driven and adaptable Full Stack Software Developer with a passion for coding with experience in implementing innovative solutions. Seeking a position within a dynamic organization where I can leverage my technical expertise, problem-solving skills, and continuous learning mindset to contribute to projects and drive the team's success.

WORK EXPERIENCE

Federal Home Loan Bank of Chicago

IT Engineer | Chicago, IL   November 2022-Current

- Implemented Microsoft Graph API calls in Python to authenticate and establish a connection with SharePoint Online, enabling automated downloading and uploading of reports directly to SharePoint document libraries. This solution has since become a standardized pattern within the organization, streamlining report management processes and promoting efficiency across teams
- Created Python scripts to solve business problems and utilized Control-M for job scheduling and orchestration, effectively streamlining workflows and enhancing operational efficiency
- Collaborated with cross-functional teams, including team leads, business analysts, and IT personnel, to gather insights and propose process improvements for the Control-M overnight batch process
- Actively contributed to team meetings and training sessions to enhance technical proficiency in Amazon Web Services, Azure DevOps, IT operations, and SCRUM practices. Currently utilizing DevOps pipelines to deploy jobs efficiently
- Exemplified an exceptional work ethic and demonstrated rapid growth in technical concepts and responsibilities, resulting in a promotion from Junior IT Engineer within just 12 months

May Watts Elementary School, Indian Prairie School District

Special Education Teacher | Aurora, IL   August 2017-August 2022

- Served as tech team lead for rollout and implementation of different technology services for my team to better assist in scheduling and to provide curriculum supports
- Individualized curriculum and plans for students in inclusion classrooms by collaborating with staff and parents, while maintaining and analyzing data to inform academic decisions and address diverse student needs
- Designed and orchestrated daily schedules for a team of 10+ employees, balancing safety concerns and productivity needs to optimize overall efficiency

TECHNICAL SKILLS

Languages - Python, JavaScript, HTML, CSS | Frameworks - Express, React, Bootstrap, jQuery, Flask | API - REST
Databases - MySQL, MongoDB | Version Control Systems - Git, GitHub, Azure | Amazon Web Services

TECHNICAL PROJECTS

Portfolio - *Full Stack Developer* – https://ecstatic-einstein-4dce3f.netlify.app/
Frontend based website sharing my backend and frontend personal projects

- Developed projects using Python, MERN and React to create innovative solutions
- Designed UI with CSS and Bootstrap for a seamless user experience

EDUCATION

Aurora University - Aurora, IL | August 2013 - May 2017
B.A., *Special Education* | Overall GPA: 3.935/4.00
